Specialist for IT Network Security

Łopuszańska 95, 02-220 Warszawa, Poland

Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology - with us you will have the chance to improve quality of life all across the globe. Welcome to Bosch.

Whether in areas of automated mobility, Internet of Things, Smart Home solutions with innovative ideas we keep setting new standards to create integrated future. This is only possible with the help of a global network for more than 410,000 highly committed employees, with pioneers who break new technological ground every day. So why not join us in starting something remarkable?

Your contribution to something big:

- ▶ Acting as a specialist in the IT Security Team (service landscape: network segmentation, perimeter security, Internet Access, Network connection to external companies, merger & carve-outs, remote access of external employees)
- ▶ Being responsible of approval processes and representing them to the customer
- ▶ Processing of ticket-based change requests
- ▶ Verification of existing configurations of firewalls and proxies
- ▶ Analysing customer application architectures and evaluating it against the IT network security policies
- ▶ Discovering new areas of activity and needed changes to the services to further optimize and automate the product and process landscape

What distinguishes you:

- ▶ Experience in the area of IT infrastructure area, focus on IT security and application architectures
- ▶ Knowledge in IT security infrastructure concepts, network technologies (amongst others: firewall, proxy, LAN, WAN), internet protocols (amongst others: TCP/IP, HTTP, DNS)
- ▶ Certifications e.g. CISSP, CISM, CISA, etc. are an advantage
- ▶ Completed degree (Bachelor or Master) with a focus in information technology (Computer Science etc.) or similar qualification
- ▶ Proficiency in English, ideally German skills (willingness to learn the language would be an advantage)
- ▶ Ability to communicate, work with international teams
- ▶ Nice to have any knowledge of: Python, Django, MySQL, Postgress and Linux

Benefits:

- ▶ Secure employment based on contract of employment
- ▶ Working in a dynamic environment in international culture
- ▶ Broad access to trainings, conferences and webinars
- ▶ Private medical care, sport pass, co-financing lunches, language and other training
