Start something big today. Apply now for position:

## Java Software Developer for Cloud Platforms

Location: Jutrzenki 105, 02-231 Warszawa, Poland

**Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology – with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.**

Whether in areas of automated mobility, Internet of Things, Smart Home solutions with innovative ideas we are keep setting new standards to create integrated future. This is only possible with the help of a global network of more than 410,000 highly committed employees, with pioneers who break new technological ground every day. So why not join us in starting something remarkable?

### Your contribution to something big:

**As a Software Developer you will work in international team, developing cloud solution for Bosch e-bikes (OneBikeCloud platform). The team will be very independent in technologies and architecture selection. Brainstorms expected :)**

### Tasks include:

- ▶ Analysis, design / architecture and implementation of complex, distributed software systems in the multi-cloud environment
- ▶ Quality assurance is a part of the task, and refers to documentation of results and knowledge sharing
- ▶ Communication with other RB units regarding project topics is very important

### Benefits:

- ▶ Secure employment based on contract of employment
- ▶ Working in a dynamic environment in international culture
- ▶ Broad access to trainings, conferences and webinars
- ▶ Private medical care, sport pass, co-financing lunches, language and other training

### What distinguishes you:

- ▶ 3+ years experience with Java incl. Spring Framework (Kotlin desirable)
- ▶ Design, analysis and implementation of complex/distributed systems
- ▶ Capture and analyse the customer problem
- ▶ Agile mindset (proven experience with Scrum and/or Kanban)
- ▶ Clean Code
- ▶ (very) Good understanding of cloud native software (AWS, Azure, Google)
- ▶ Experience with service architecture and distributed systems
- ▶ Experience with containerized environment (Docker, Kubernetes etc.)
- ▶ NoSQL / SQL databases
- ▶ Ability to work in an international team
- ▶ Language skills: B2 English
- ▶ Willingness to travel
