

Junior IT Content Writer

5 000 - 7 000 PLN + VAT B2B Contract

Get to know us better

CodiLime is a software and network engineering industry expert and the first-choice service partner for top global networking hardware providers, software providers and telecoms. We create proofs-of-concept, help our clients build new products, nurture existing ones and provide services in production environments. Our clients include both tech startups and big players in various industries and geographic locations (US, Japan, Israel, Europe).

While no longer a startup - we have 200+ people on board and have been operating since 2011 we've kept our people-oriented culture. Our values are simple:

- Act to deliver
- Disrupt to grow.
- Team up to win.

The project and the team

At CodiLime, we understand that to create impactful software and boost tech-driven businesses globally, we need top-notch engineers and thinkers. That is why for our growing marketing team, we are looking for an exceptional content writer who has experience in producing valuable and engaging content and has a certain level of technical expertise.

What else you should know:

- We're part of CodiLime's growth team, which consists of about 15 high-level managers, marketers and business developers
- We look for new clients from around the world, with a focus on the United States, Western Europe, Israel and Japan
- We target both market leaders and disruptive startups

Your role

As a part of the project team, you will be responsible for:

- Writing technical and business content in various forms such as blog posts, articles, case studies, white papers, landing pages etc.
- Applying SEO guidelines to the content
- Explaining complex information in a clear and concise manner
- Working with technical staff to ensure the accuracy of descriptions and reporting
- Researching for additional content - market trends, forecasts, analyses, opinions and information on products and technology
- Contributing to the development of new communication concepts and generating ideas for marketing campaigns that meet the global goals we have for our brand
- Contributing to the company's communication strategy, which is aligned with the business

Do we have a match?

As a Junior IT Content Writer you must meet the following criteria:

- Background in writing content on IT-related topics
- Fluency in both written and spoken English, and be a stickler for excellent English grammar
- The ability to write in explanatory styles for multiple audiences
- Skills in creating original content that targets a specific audience

- Some experience in working with technical teams (software engineers, network engineers, project managers)

Beyond the criteria above, we would appreciate the nice-to-haves:

- An interest in networking and cloud technologies
- A native speaker of English
- Experience in creating tech content for an IT company

More reasons to join us

- Flexible working hours and approach to work: fully remotely, in the office or hybrid
- Professional growth supported by internal training sessions and a training budget
- Solid onboarding with a hands-on approach to give you an easy start
- A great atmosphere among professionals who are passionate about their work
